

Fleet Half Marathon – Postponement Update – 20th March 2020

Following the decision to postpone the Fleet Half Marathon last weekend due to the evolving situation surrounding COVID-19, we have come to the very difficult conclusion to cancel this year's race.

We have considered a number of options to re-stage the race in 2020 but ultimately decided that this is not feasible due to the huge amount of additional work involved for the voluntary organising committee, the fact that several key suppliers do not have any availability, combined with continued uncertainty and the number of events being shifted to the Autumn which is already a busy time of year in the racing calendar. We also have our own 10K race on 18th October to consider.

All runners were sent an email yesterday with their options. This email was sent to you by our entries partner FR Systems. It will have been sent to the email address they held against your initial entry. If you have not received an email please check your junk folder and any other emails accounts you may have entered from e.g. your work or other personal accounts. If you still do not have a copy please email info@frsystems.co.uk and request that the cancellation email is resent. Their offices will open again at 9am on Monday.

We thank you for your support both last weekend and since our announcement yesterday – it really is appreciated and valued by the team.

We hope that you are able to continue with some running over the next few difficult months and trust that you and your families can stay safe and healthy.

Fleet Half Marathon Team
