

Fleet Half Marathon 15th March 2020 Postponed

Dear Runner

As you will have seen on the news, the latest situation and advice from the UK government on the Covid 19 pandemic is being updated and revised on a daily basis and is very fast-paced.

We have been following all of the advice and been in regular contact with the authorities and as a club we will always put the health and safety of our runners, helpers, marshals and local residents first.

To this end regrettably we have now decided to postpone this year's Fleet Half Marathon to minimise the risk that may be caused from large gatherings of people which at this event will be from both within and outside the Fleet area.

We apologise to those runners who were travelling some distance to run. This is not an easy decision to make the day before the event, but one that aims to ensure the wellbeing of the runners and the community.

We now need some time to look at the options for postponement to later in 2020 or simply deferring to 2021. Please bear with us whilst we work things out and we will get back to everyone as soon as we can. Please keep hold of your race number for the time being.

The Fleet Half Marathon Team
Fleet & Crookham AC
14th March 2020
